

Microsoft Multi-factor Authentication

As a Park Holidays UK Ltd. employee, you are required to use Multi-factor Authentication when using corporate applications and services linked to your @parkholidays.com / @parkleisure.co.uk email address.

The below guide details how to configure MFA for use with your work login using an authenticator app on your mobile device. We recommend using Microsoft Authenticator – available in both the iOS and Play Store.

1. Setting up MFA with the Microsoft Authenticator App (Recommended)

1. Download the Microsoft Authenticator app from the iOS or Play Store on your mobile

2. From your phones web browser, browse and log in to: <https://aka.ms/mfasetup>
3. When prompted click **Next**

5. When prompted click **Pair your account to the app by clicking this link.**

- When prompted, allow notifications from the “Authenticator” app

- If prompted, click **Add Account** > select **Work or school account** and sign in
- Go back to your mobile browser and click **Next**
- A number will now display in your mobile browser along with some instructions, at the same time you should receive a notification from the Microsoft Authenticator app – open this up

- Enter the number that was previously displayed in your mobile browser into the Microsoft Authenticator app
- Go back to your browser click **Next** then when prompted click **Done**

2. Setting up MFA with a 3rd party Authenticator App such as Google Authenticator

1. Download the preferred Authenticator app of your choice from the iOS or Play Store on your mobile
2. From your mobile browse and log in to: <https://aka.ms/mfasetup>
3. When prompted click **Next**
